## Hulhumalé Monuments Design Competition

Hulhumalé is set to witness transformative changes to its landscape. On the wide roads of Hulhumalé, which we all love, roundabouts are emerging. We cannot leave these without monuments that showcase the significance and beauty of our **"Dhiveheenge Raajje."**

The Housing Development Corporation is announcing **Hulhumalé Monuments Design Competition**, challenging artists, designers, and architects to create sustainable and remarkable roundabout monuments that resonate with the hearts of Maldivians.

As a reflection of our commitment to creativity and community, HDC is offering a prize of **MVR 100,000** for the finest design! This is an opportunity not only to showcase your talent but also to contribute to the cultural identity of our Island City.

At HDC, we believe in shaping the future of our Island City together. Let your creativity shine as we create lasting symbols of our **Dhiveheenge Raajje** in Hulhumalé.
